

HEALTH ECONOMICS GROUP, INC.

Engineering Economical Benefit Solutions Since 1978

WHO WE ARE

EXPERIENCE

We have been in business since 1978. For nearly 40 years we have designed and managed employee benefit plans. In addition, we provide administrative and analytical services for county governments and other organizations. We know how to serve the benefits needs of plan sponsors varying in size from ten participants to thirty thousand. Currently, we are managing benefits for more than 100,000 individuals.

TECHNOLOGY

Our knowledge of employee benefit plans plus a sophisticated computer system support our ability to continuously evolve in an ever-changing economic and regulatory environment. Our IT and operational capabilities enable us to react quickly and efficiently to implement new services and methodologies requested by our clients. We proudly exceed 99% in operational accuracy.

SERVICE

We go beyond benefit plan management by providing education, communication, and actuarial support at no additional charge to clients. At the plan participant level, our knowledgeable professionals are responsible for both examining claims and providing customer service. This means that participants will speak only with representatives who know and understand their benefit plans, providing accurate, immediate solutions and answers to their questions.
